Pedra Palazzo

Shown | Field 24" x 48" in Grey

Pedra Palazzo

Inspired by limestone sourced from the Iberian Peninsula, Pedra Palazzo Porcelain is characterized by light, regular grooves that run horizontally along the surface. Soft, natural shades of grey and ivory clothe rooms in a contemporary aesthetic while also infusing warmth and organic energy.

The visual textures of Pedra Palazzo express depth and connect you to your surroundings. Whether outfitting commercial or residential walls and floors with regular tiles or a Mosaic Mix of different hues and finishes, this collection evokes a modern, fashionable elegance at its best.
