#### ADDITIONAL NOTES

Ellington Empire tiles are intended for vertical (wall) applications only. All Ellington Empire field tiles feature natural stone products. We recommend sealing all natural stone products with a penetrating sealer and sealing all porous non-polished stone (limestone, tumbled marble, etc.) prior to grouting. This prevents grout from staining or affecting the color of the stone. Stone is a natural product, and care should be taken to protect it from harsh abrasive cleaners and abrasive cleaning tools. Please note that this stone has high potential to scratching. For further questions/information about additional usages, please consult with your installer.
