# CAFÉ

# Café

The word Café brings to mind the clink of spoons stirring sugar into coffee, the sound emanating from the milk steamer, and the friendly banter between the barista and clients at the bar. Although the decor of Cafés around the world differs dramatically, the backsplash of the coffee bar is bound to be clad in some kind of tile to make for easy cleaning at the end of the day. Inspired by this elegant yet utilitarian idea, we offer the Café collection, a simple selection of handmade subway tile shapes and colors, perfectly suited to beautify your kitchen backsplash, restaurant bar, or any other space where the combination of handcrafted tile will allow for a touch of beauty and functionality.
